

Install Node Exporter & Prometheus pada server, carilah memory usage dari server tersebut menggunakan metrik yang kalian dapatkan setelah menginstall node exporter & Prometheus

Tampilan Grafana

The screenshot shows the Prometheus 'Status > Target health' page. It lists a single target named 'node' with the endpoint 'http://172.17.131.196:9100/metrics'. The target is in an 'UP' state, last scraped 7.441s ago, and the scrape took 14ms. The target has labels 'instance="172.17.131.196:9100"' and 'job="node"'. The table below shows the target details.

Endpoint	Labels	Last scrape	State
http://172.17.131.196:9100/metrics	instance="172.17.131.196:9100" job="node"	7.441s ago 14ms	UP
